# Approved For Release 2000/08/26 : CIA-RDP61S00750A000600080043-9

### INSTRUCTIONS FOR COMPLETION

- 1. Column 1. Cite requirement number or other identifying data. List UW areas in numerical order by country. List alternate or new areas last.
- 2. Column 2. State type of asset. If more than one type asset exists for an area, show number and type. If necessary, explain further in Column 8. If no asset exists or is anticipated, enter "None" and check Column 6.
- 3. Column 3. For each asset reported in Column 2 with a reasonable degree of assurance of US Control check "Yes". If "No" is checked, explain in Column 8.
- 4. Column 4. If this asset is of a bi- or multilateral type and therefore committed to fulfill UW requirements appearing in war plans other than JCS approved war plans (SHAPE or other), check "Yes" and explain in Column 8.
- 5. Column 5. Check the state of readiness for each asset reported in Column 2. <u>If possible</u>, give estimated readiness year. If no estimated readiness date can be predicted, enter "Unknown" in this space.
- $6.\,$  Column  $6.\,$  If no asset is expected because the requirement is operationally infeasible, check this column and explain in Column  $8.\,$
- 7. Column 7. If to become active, this asset must have military support, state briefly any special requirements for such support. Indicate, as appropriate, <u>unusual</u> needs for military equipment (Special Forces, liaison teams, air or sea lift, etc.). If no such support is necessary, enter "None."
  - 8. Column 8. Explain columns 2, 3, 4 and 6 as appropriate.
  - 9. Classification classify TOP SECRET NOFORN when completed.

#### SECRET

#### INSTRUCTIONS FOR COMPLETION OF COLUMN 9

Column 9. Identify by cryptonym the project(s) or other activity including developmental activity which will provide these assets. This section will be detached if the basic report is to be used outside DD/P.
